## Sided Overview

eliminates the need for horizontal cable managers by providing frequent 1U spacing in the rack spacing. Double-Sided MCS Master Cabling Sections have edge-ports for optional Saf-T-Grip® straps.

- Patented cable guide fingers at 1U intervals for easy management of patch cords
- UL 94V-0 fire-rated composite materials for use in plenum areas
- Sturdy, reversible aluminum SwitchGate Door/Cover with handle included
- Four widths (4.4", 6", 10" or 12"), a variety of heights (5'6" through 9'), and single-sided (8.08"D or 10.62"D) or double-sided (16.15"D or 21.23"D) to suit your needs
- 288 to 1,052 Cat 5e cable capacity (with 40% fill) per side
- Edge-protected pass-through ports and vertical slots to secure cable with optional Saf-T-Grip® straps on double-sided versions
- Preassembled for easy installation and a more cohesive appearance
- Also available in larger, higher capacity version called MCS-EFX Master Cabling Section with Extended Fingers
